

# THINK-TANK IN OTOLARYNGOLOGY

## ENT Innovations and pearls

### Module 4: CHEMICAL ASSISTED ANATOMICAL DISSECTION (CADISS) IN MIDDLE EAR SURGERY

#### Speaker

#### Prof. Marta Sandoval, MD, PhD

Department of Otolaryngology, Hospital Clínic de Barcelona, Barcelona, Spain

Assistant Professor at the Universitat de Barcelona

Her main interest field in Otolaryngology is middle ear surgery. She worked on the treatment of Eustachian tube obstruction and participated in the Spanish consensus on this subject. She does all kinds of middle ear surgeries with experience in revision surgeries and chronic otitis media and its management. Since a year and a half she has been testing and experiencing the use of CADISS and improving its development.

#### Moderator

#### Prof. Livio Presutti, MD
