Workshop ECM

The CapiTal wOrkshop

Is CTO-PCI the right path?

June 13, 2025

Università Campus Bio-Medico di Roma

Scientific Direction

Prof. Gian Paolo Ussia

Co-director

Dr. Nino Cocco

Scientific Committee

**Prof. Kambis
Mashayekhi**

**Prof. Pierfrancesco
Agostoni**

Location of the event

Università Campus Bio-Medico di Roma
Simulation Center
Via Regdo Scodro, 42 - 00128 – Roma

Critical analysis of literature data on complex coronary angioplasty procedures with advanced technical and instrumental levels.

Practical training for participants with hands-on sessions to prepare for managing the most important complications.

Live cases with international experts.

Participation

Registration is mandatory. To register, you must sign up at <https://ecm.unicampus.it> and complete the registration process by selecting the event from the course catalog.

Released Title

The course includes the release of a certificate of participation from the Campus Bio-Medico University of Rome and the CME certificate with corresponding credits.

7,8 CME credits.

08.00 Participant Registration

08.15 Workshop Presentation

Ussia Gian Paolo, Cocco Nino

08.30 Scientific Session (critical literature review):

- **Topic 1:** From SYNTAX - toward STICH - crossing with COURAGE - ending in ISCHEMIA: the journey through the confusion
- **Topic 2:** The in-DECISION Trials and their original sin
- **Topic 3:** Does CTO-PCI cause more harm than benefit or more benefit than harm?
- **Topic 4:** From ischemia to atherosclerotic burden: changing the paradigm of patient selection

Barbato Emanuele, Agostoni Pierfrancesco, Mangiacapra Fabio, Biondi Zoccai Giuseppe, Nusca Annunziata

10.30 Live Case “live streaming with Nagoya CTO club meeting, Japan”

Kambis Mashayekhi, Ussia Gian Paolo, Cocco Nino

12.30 Lunch

13.30 Practical Session (hands on):

Group 1: Coils: compatibility and releaset

Group 2: Snare: compatibility and manipulation

Group 3: IVUS: focus on laptop-based learning

Group 4: Echo-guided access and pericardiocentesis

Simulators: retrograde access, rotablator, wire and microcatheter manipulation (residents)

Barbato Emanuele, Agostoni Pierfrancesco, Kambis Mashayekhi, Cocco Nino, Rosett Melfi, Paolo Gallo, Rocco Stio, Christian Di Russo, Nunzio Montelione

16.30 End of Sessions

RESHAPE YOUR SKILLS

The UCBM Academy promotes post-graduate training at the Campus Bio-Medico University of Rome through courses in line with the most current scenarios and the most relevant needs of the labor market, within programs also developed in partnership with companies, incubators and business accelerators. UCBM Academy is a place, both physical and virtual, where the continuous sharing of knowledge contributes to producing value and employability in the healthcare, technological and nutritional worlds, responding to the urgent challenges of innovation and sustainability.

Accredited ECM Provider

The UCBM Academy ranked first in the ranking of the best ECM Providers 2018 for the university category.

In close collaboration with the clinical and teaching areas of the University, it designs seminars, workshops, conferences and innovative training modules in this area, aimed at healthcare professionals.

The UCBM Academy also collaborates with the Human Resources Department of the University for the coordination and management of ECM training for healthcare personnel of the Fondazione Policlinico Universitario Campus Bio-Medico.
